

Meeting minutes

Project title: Tube Twin (passenger count forecasting/general tube analysis).

Meeting information

Date 27-09-2022

Meeting purpose Daily Scrum

Location [Link](#)

Participants

Emmanuel David

Michael Mamah

Kelvin Mwaniki

Hakim Balogun

Harmony Odumuko

Endurance Arienkhe

AGENDA TOPICS

Agenda topic1: Feedback on assigned tasks. | Presenter: All members.

Discussions

The team have started working on the week's objectives.

Hakim is yet to create the AWS resources but has reached out to Muzi to request the permissions necessary for the creation.

Michael reported that the notebook crashes every time he tries to execute the codes for modelling. We are looking for other alternatives at the moment.

Emmanuel has made progress on creating the presentation slides for Thursday and we chose to have a final and thorough check-through during Wednesday's scrum meeting.

Action items	Person responsible	Deadline
Continue work on the presentation slides.	Emmanuel	28-09-2022
Find alternative ways to execute the model and forecast using the transformed data.	All members	28-09-2022
Continue with the process of creating the required AWS resources.	Hakim	28-09-2022
Make final edits and corrections to the presentation slides and rehearse.	All members	28-09-2022
