

# Meeting minutes

Project title: Tube Twin (passenger count forecasting/general tube analysis).

## Meeting information

Date	25-09-2022
Meeting purpose	Daily Scrum
Location	<a href="#">Link</a>

## Participants

Emmanuel David
Michael Mamah
Kelvin Mwaniki
Hakim Balogun

## AGENDA TOPICS

Agenda topic1: *Preparing for new a week.* | **Presenter:** *All members.*

### Discussions

This was a short session for discussing the progress so far and preparations for the coming week. Everyone now has access to the transformed tube data. Michael and Emmanuel have been working on ways to create forecasting models from it. All other aspects too, like the SUMO, Streamlit, and NetworkX are being monitored for progress. We should try and attend tomorrow’s check-in meeting with Elizabeth and do well to be on time.

Action items	Person responsible	Deadline
Continue with efforts to create the forecasting models.	Michael, Emmanuel	26-09-2022
Attend the check-in meeting tomorrow and be on time.	All members	26-09-2022
