

Meeting minutes

Project title: Tube Twin (passenger count forecasting/general tube analysis).

Meeting information

Date	23-08-2022	Emmanuel David
Meeting purpose	Daily Scrum	Kelvin Mwaniki
Location	Link	Hakim Balogun
		Michael Mamah
		Endurance Arienkhe
		Harmony Odumuko

AGENDA TOPICS

Agenda topic1: *Project objectives.* | **Presenter:** Kelvin, All members.

Kelvin enlightened the team more on the project, giving a deeper insight into the objectives which are:

- To create a digital twin of the London tube.
- Using historical data, analyzing passenger traffic and examining special days and events' effects on traffic should be possible.
- To create a real-time forecasting model that will likely be updated within intervals of 15 minutes.

Also, all members are to read and research more on the project and come up with ideas on how to achieve these stated objectives.
