AGENDA TOPICS

Agenda topic 1: Progress on our assigned tasks. | Presenter: All members.

Discussions

The team has made progress on their assigned tasks. We strive to achieve all requirements before their due dates.

Project round-up objectives still remain the same:

- Completing and submitting the project White Paper on or before the due date.
- Completing the documentation notebook within the same time frame.
- Finalizing the codes, files, and notebooks required for our app's functionality.
- Migrating resources to AWS, testing, and deploying the project before the due date.
- Preparing the presentation slides for the final project presentation.

We implored each other to take our tasks seriously as we now have limited time to complete the whole project.
